NOTE FOR RECORD: Original 1-7 (15) 6/15/50, fwd OSO for dispatch where it was discovered that OSO had rec'd similar ltr from Willoughby. Therefore, OSO rewrote ltr to cover reply for 25 May ltr rec'd in OSO, & 26 May ltr rec'd in O/DCI.

Major General C. A. Willoughby Assistant Chief of Staff, 0-2 Ceneral Hundquarters For East Command APO 500, \$ Postmester San Francisco, California

My dear Ceneral:

This will asknowledge your letters of 25 and 26 May and the copies of Volume I, II, and III of ATIS Publications. I note that additional volumes will be distributed as completed.

I should like to take this opportunity to state that the ATIS reports are of great value to the national intelligence picture, and that extensive use is being made of them within this Agency. Not only are they examined immediately upon receipt by Analysts concerned with their individual subject matter, but their contents are kept continually available for researchers by means of a unique machine card indexing and filing system.

It will interest you, I know, to learn that the subject matter in these interrogations frequently coincides with or is verified by similar reports coming to us from points for distant from your Residuarters. In many cases, however, the ATIS reports are the only source available, and their accuracy is therefore of great import to a well rounded intelligence picture.

It is most certainly to be hoped that the important work being done by the Translator and Interpreter Section will not be further jeopardised by personnel deductions.

Many thanks for semiing us the ATIS publications and for calling them to my attention. With kindest personal regards, please believe

Major General C. A. Willoughby Assistant Chief of Staff, G-2 General Headquarters Far East Command APO 500, EPostmaster San Francisco, California

My dear General:

This will acknowledge your latter of 26 May and enclosure, Volume I, "Master Alphabetic Index ATIS Interrogation Reports." I note that additional volumes will be distributed as completed.

I should like to take this opportunity to state that the ATIS reports are of great value to the national intelligence picture, and that extensive use is being made of them within this Agency. Not only are they examined immediately upon receipt by Analysts concerned with their individual subject matter, but their contents are kept continually available for researchers by means of a unique machine card indexing and filing system.

It will interest you, I know, to learn that the subject matter in these interrogations frequently coincides with or is varified by similar reports coming to us from points far distant from your Headquarters. In many cases, however, the ATIS reports are the only source available, and their accuracy is therefore of great import to a well rounded intelligence picture.

It is most cartainly to be hoped that the important work being done the Translator and Interpreter Section will not be further jeopardized example deductions.

Many thanks for sending us the ATIS Index and for calling it to my attention. With kindest personal regards, please believe me,
